How to Find Legal to Upload Videos for AdSense

You know? Creative commons videos don't have any license and are all legal to upload

Okay don't get confused :)

In your browser, go to <http://search.creativecommons.org/>

Type the keyword then click the YouTube button. Or in the YouTube search box type the desired keyword and add, **Creative Commons**

Screen Shoot

The screenshot shows the search.creativecommons.org website. At the top, there is a green header with the 'cc Search' logo and the tagline 'Find content you can share, use and remix'. Below the header is a search input field. Underneath the search field, there are two checked checkboxes: 'I want something that I can...' and 'use for commercial purposes; modify, adapt, or build upon.'. Below these checkboxes, there is a section titled 'Search using:' with several buttons for different search engines: Europeana Media, Flickr Image, Fotopedia Image, Google Web, Google Images Image, Jamendo Music, Open Clip Art Library Image, SpinXpress Media, Wikimedia Commons Media, and YouTube Video. A red arrow points to the YouTube Video button. At the bottom left, there is a disclaimer: 'Please note that search.creativecommons.org is not a search engine, but rather offers convenient access to search services provided by other independent organizations. CC has no control over the results that are returned. Do not assume that the results displayed in this search portal are under a CC license. You should always verify that the work is actually under a CC license by following the link. Since there is no registration to use a CC license, CC has no way to determine what has and hasn't been placed under the terms of a CC license. If you are in doubt you should contact the copyright holder directly, or try to contact...'. At the bottom right, there is a yellow box with the text 'Add CC Search to your browser.' and 'Learn how to switch to or from CC Search in your Firefox search bar.'.
